INDEPENDENT ACCOUNTANTS' REVIEW REPORT

We have reviewed the accompanying financial statements of the governmental activities and the major fund of Special Road District No. 1 as of and for the year ending June 30, 2019, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of the management of Special Road District No. 1. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountants' Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountants' Conclusion

Based on our review, we are not aware of any modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis is presented to supplement the basic financial statements. Such information, although not a required part of the basic financial statements, is required by the Governmental Accounting Standards Board who consider it to be an essential part of financial reporting and for placing the basic financial statements in an appropriate operational, economic, or historical context. The information is a representation of management. We have not audited or reviewed such required supplementary information, and accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on it.

Supplementary Information

The Schedule of Revenues, Expenditures & Changes in Fund Balance – Budget & Actual is presented for purposes of additional analysis and is not a required part of the basic financial statements. We have not audited or reviewed this information and accordingly, we do not express an opinion, conclusion or any other form of assurance on it.

Management's Report on Other Regulatory Requirements

The accompanying Management Representation as Required by State Regulations is required by the Oregon Secretary of State. We have not audited or reviewed this information and accordingly, do not express an opinion, conclusion or any other form of assurance on it.

Prior Year Financial Statements – Summarized Information

We previously reviewed Special Road District No. 1's June 30, 2018 financial statements and in our report dated May 26, 2019, stated that based on our procedures, we were not aware of any material modifications that should be made to the financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America. We are not aware of any material modifications that should be made to the summarized comparative information presented herein as of and for the year ended June 30, 2018, for it to be consistent with the reviewed financial statements from which it has been derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

MANAGEMENT'S DISCUSSION AND ANALYSIS

YEAR ENDED JUNE 30, 2019

As management of Special Road District No. 1 (the District), we offer readers this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2019.

Financial Highlights

The District is primarily a property tax-based organization, with 95% of our revenue derived from property taxes. The vast majority of our revenues support road maintenance in Deschutes County, Oregon. The District services a specified area of Deschutes County, Oregon.

As a property tax-based organization, we are subject to uncertainties in economic conditions relative to our area, however, we feel that the District is able to effectively manage its resources to meet increased demands felt in our communities. The economic outlook is expected to improve for the year ended June 30, 2020. The District continues to look for new and unique opportunities to work with other agencies and organizations to provide quality services for our community.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the financial statements. This report also contains supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. These statements provide information about the activities of the District as a whole and present a longer-term view of the District's finances.

The government-wide financial statements include all assets and liabilities, using the accrual basis of accounting, which is similar to the method of accounting used by most private-sector businesses. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - continued

YEAR ENDED JUNE 30, 2019

These two statements report the District's net position and changes to them. Net is one way to measure an organization's financial health. Changes in net position over time provide an indicator of whether financial health is improving or deteriorating.

Government Fund Financial Statements

Government fund financial statements also provide insight into the District's overall health. Fund financial statements report the District's operations in more detail than the government-wide financial statements. The District has only one fund, the general fund.

This fund is reported using the modified accrual basis of accounting. The governmental fund statements provide a detailed short-term view of the District's operations. The relationship between governmental activities and governmental funds is described in reconciliations after the fund financial statements of this report.

Notes to the Financial Statements

The notes provide additional information that is essential for a full understanding of the information provided in the government-wide and fund financial statements. They are an integral part of the financial statements and should be read in conjunction with them.

MANAGEMENT'S DISCUSSION AND ANALYSIS - continued

YEAR ENDED JUNE 30, 2019

The District's total revenues for the year ended June 30, 2019 increased by \$22,392 over amounts in the year ended June 30, 2018. This is primarily due to increases in property tax revenue turned over from the county, which comprised approximately \$15,047 of the increase. Road maintenance supplies decreased over the prior year and the board awarded a cost of living compensation increase over the amounts paid in the year ended June 30, 2018.

Financial Analysis of the Government's Funds

The focus of the District's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance serves as a useful measure of a government's net resources available for spending at the end of the fiscal year.

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

MANAGEMENT'S DISCUSSION AND ANALYSIS - continued

YEAR ENDED JUNE 30, 2019

At June 30, 2019, the District's governmental funds reported an ending fund balance of \$154,255, a decrease of \$22,545 related to higher expenditures in payroll and purchasing a new water truck. The ending fund balance constitutes a nonspendable fund balance of \$8,066 and an unassigned fund balance of \$146,189 which is available for spending at the District's discretion.

Capital Assets

The District's capital assets were substantially acquired from expenditures paid by property taxes. The summary of net investment in capital assets is as follows:

	June 30,	
	2019	2018
Land	\$ 55,688	\$ 55,688
Building and improvements	39,097	40,778
Equipment	223,426	198,998
	<u>\$ 318,211</u>	<u>\$ 295,464</u>

Budgetary Highlights

Local budget law as it applies to road districts in Oregon under ORS 371 does not require annual adopted appropriation of expenditures. The District prepares a budget for its purposes. Total expenditures were over by \$43,516 for fiscal year end June 30, 2019 due to the delayed purchase of a water truck approved in the prior year's budget. The Board approved the purchase in FY 18-19 but the original approved budget was not adjusted.

Economic Factors and Next Year's Budgets

Central Oregon will continue to face challenges anchored in supporting relatively high growth and relatively low wages. The District's area of service is road maintenance. Property tax collections have improved as the economy has continued to expand and are expected to remain fairly consistent in the coming years.

Requests for Information

This financial report is designed to provide interested parties with a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. If you have questions about this report or need additional financial information contact the Special Road District No. 1, 56488 Solar Drive, Bend, Oregon 97707.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Special Road District No. 1 (the District) was organized under Oregon revised Statute 371 to maintain roads in a specified area of Deschutes County, Oregon. The District is a political subdivision of the State of Oregon. Under the criteria of Governmental Accounting Standards Board (GASB) Statement No. 14, the reporting entity consists of the primary government.

The District is governed by an independently elected board of directors and is legally separate from all other entities. It is also financially independent of other state and local governmental units. It has the power to levy taxes, is responsible for its debts and is entitled to any surpluses. The District is not a component unit of another entity.

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The significant policies of the District are described below.

Basis of Presentation

Government-Wide Financial Statements

The government-wide financial statements include the statement of net position and the statement of activities and display information on all of the activities of the District. They include all funds of the reporting entity.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges for goods and services in and 2) grants and contributions that are restricted to meet operational or capital requirements. Other items not properly included among program revenues are reported instead as general revenues, including property taxes, other income and interest earnings.

Net position is reported as restricted when constraints placed on its use are either externally restricted (such as by grantors and donors) or through enabling legislation.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows.

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Measurable is when the amount of the transaction can be determined. Available means collectable within sixty days of the current period. The revenues susceptible to accrual include property taxes, intergovernmental revenue, interest revenue and charges for services. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, if expected to be liquidated with available current resources.

Expenditures related to compensated absences are recorded as expenditures only to the extent they have matured. Capital asset acquisitions are reported as expenditures in the governmental funds and proceeds from general long-term debt or capital leases are reported as other financing sources.

The District's general fund is the primary operating fund of the District and is used to account for all activities.

Budget Policy

The District, organized under Oregon Revised Statutes Chapter 371, is not subject to Oregon Local Budget Law under the provisions of Oregon Revised Statutes Sections 294.305 to 294.565. The District prepares a budget each year for its own guidance and is required to certify its tax assessment each year to the County.

Cash and Investments

For financial reporting purposes, the District considers all highly liquid investments with original maturities of 90 days or less to be cash equivalents. Oregon Revised Statutes authorized the District to invest in obligations of the U.S. Treasury and Agencies, time certificates of deposit, bankers' acceptances, repurchase agreements, and the State of Oregon Local Government Investment Pool.

Supply Inventories and Prepaid Items

The cost of inventory items is recognized as an expenditure when purchased (purchase method) for the fund statements. Management has determined that the inventory is not material for the full accrual statements.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the governmental fund statements and the government-wide statements.

SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Property Taxes

Property taxes are levied and become a lien on July 1. Collection dates are November 15, February 15 and May 15 following the lien date. Discounts are allowed if the amount due is received by November 15 or February 15. Taxes unpaid and outstanding on May 16 are considered delinquent. An allowance for doubtful accounts is not deemed necessary, as uncollectible taxes become a lien on the property.

In the government wide statements, all property tax receivable are recognized as revenue. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectible taxes has been established. All property taxes receivable is due from property owners within the District.

Capital Assets

In the government-wide statements, capital assets are recorded at original or estimated original cost. Donated capital assets are recorded at their estimated fair value on the date donated. The District defines capital assets as assets with an initial cost of more than \$500 and an estimated useful life extending beyond one year. Interest and other costs incurred during construction are capitalized. Maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Capital assets are depreciated using the straight-line method over the following useful lives:

Equipment	5-15 years
Building and Improvements	30 years

In the governmental fund statements, capital assets are expended as incurred as capital outlay.

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Equity Classification

In government-wide financial statements, equity is classified and displayed in three components:

Net investment in capital assets – Consists of capital assets, net of accumulated depreciation and is reduced by the outstanding balance of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvements of those assets.

Restricted net position – Consists of net assets with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or law through constitutional provisions or enabling legislation.

Unrestricted net position – All other net assets that do not meet the definition of “restricted” or “net investment in capital assets.”

It is the District’s policy to first use restricted net position prior to the use of unrestricted net position when an expense is incurred for purposes for which both restricted and unrestricted net position is available. No funds were restricted as of June 30, 2019.

In the fund financial statements, the District reports fund balance in accordance with *GASB No 54, Fund Balance Reporting and Governmental Fund Type Definitions*. As a result, in the fund financial statements governmental funds are categorized by the nature of the resources within the fund. The District reports fund balance using the following categories:

Nonspendable fund balance indicates the portion of fund equity that cannot be spent as it is not in a spendable form, such as inventories and prepaid expenditures.

Restricted fund balance indicates the portion of fund equity which is externally restricted by creditors, grantors or law.

Unassigned fund balance indicates the portion of general fund equity which is available for budgeting in future periods.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed. When unrestricted resources are available for use, it is the District’s policy to use committed resources first, assigned second, and then unassigned resources as needed.

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Compensated Absences

Vacation pay is recorded as an expenditure when earned in the government-wide statements. In the fund statements, only those amounts liquidated with sixty days after year end are accrued.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from those estimates.

NOTE 2 – CASH AND INVESTMENTS

The types of investments in which the District may invest are restricted by Oregon Revised Statutes. Authorized investments include bank demand deposits, general obligations of the United States Government and its agencies, and certain states, certain guaranteed investments issued by banks, and the State of Oregon Local Government Investment Pool.

Deposits with Financial Institutions

Deposits with financial institutions include bank demand deposits. As of June 30, 2019, the District reported cash of \$153,034 with a bank balance of \$162,370. Oregon Revised Statute Chapter 295 requires that bank depositories pledge collateral against any public fund deposits in excess of deposit insurance amounts. This provides additional protection for public funds in the event of a bank loss. The Office of the State Treasurer maintains a list of financial institutions in which deposits in excess of deposit insurance limits can be held. As of June 30, 2019, the District's cash balances did not exceed FDIC insurance. With respect to collateral requirements of ORS 295, the District was in compliance throughout the year ended June 30, 2019.

NOTE 3 – PROPERTY TAXES

The levy for general operations is based on a permanent rate of \$1.982 per \$1,000 of taxable assessed value. Unpaid property taxes become subject to foreclosure four years after they become a lien on the property. Tax collections and foreclosures are the responsibility of the county tax assessor.

NOTE 5 – LEASE ARRANGEMENT

The District leases from a nonprofit organization the use of their clubhouse space to hold the monthly board and executive meetings pending the District's meetings do not interfere with other uses of the clubhouse by the nonprofit organization. The fee to rent the clubhouse is \$50 per use, with an annual discount of \$60. There is no written lease involved for this arrangement. For the year ended June 30, 2019, \$540 was paid to the nonprofit organization for rental of the clubhouse.

NOTE 6 – RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District carries commercial insurance for other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTE 7 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through November 11, 2019, which is the date the financial statements were available to be issued.

**SPECIAL ROAD DISTRICT NO. 1
(Deschutes County, Oregon)**

MANAGEMENT REPRESENTATION AS REQUIRED BY STATE REGULATIONS

YEAR ENDED JUNE 30, 2019

The Special Road District No. 1 is subject to, and responsible for, compliance with various laws, rules, and regulations relating to its operation and finances. Among such laws, rules, and regulations are the requirements prescribed in Municipal Audit Law (ORS Chapter 297) and the Minimum Standards for Review of Oregon Municipal Corporations (OAR 162, division 40) including, but not limited to:

- (a) Deposit of public funds with financial institutions (ORS Chapter 295).
- (b) Indebtedness limitations, restrictions, and repayment.
- (c) Insurance and fidelity bonds in force or required by law.
- (d) Public contracts, purchasing, and improvements.

The management of Special Road District No. 1 is aware of the requirements of Oregon laws and administrative rules concerning each of the above requirements and has complied, in all material respects, with such requirements. Further, we are not aware of any violations or possible violations of laws, rules, or regulations, whose effects should be considered for disclosure in the financial statements or as a basis for recording a loss contingency.
